The Children's Tumor Foundation (CTF) is the leading non-profit organization dedicated to finding treatments and a cure for neurofibromatosis (NF), a tumor disorder that affects 1 in 3,000 births. NF is more common than cystic fibrosis & Duchenne Muscular Dystrophy **combined**. It can cause blindness, deafness, chronic pain, bone abnormalities & cancer.

Proceeds from this event will help fund the local NF Clinic at Arkansas Children's Hospital and the Arkansas Chapter of the Children's Tumor Foundation. The goal of the Arkansas Chapter is to support our local NF Clinic as well as provide resources and information for families in Arkansas whose lives are affected by NF.

For more information, contact Co-Chairs:

Lesley Oslica (501) 920-5588 / loslica@gmail.com
